European Window Summit by EuroWindowor – Surfing the renovation wave

Frankfurt, 30/10/2020

Dear Sirs and Madams,

what if ... the movers and shakers of our multibillion window industry would gather once a year? What if we had a platform to listen to fresh insights and discuss the developments that impact our business? Wouldn't it be about time to launch an event like this?

This is why we would like to invite you to **the first European Window Summit** held by EuroWindowor, the joined representation of our sector. So please save the date and order your tickets at conference.eurowindowor.eu for the **Virtual Conference on 24 February 2021**. Under the overarching Motto **'Surfing the Renovation Wave'** we put together a highly relevant Program and started the process of inviting Top-Speakers. Please find all details attached.

As this is an all-new conference format – for our sector in general and EuroWindowor in particular – we would like to ask you for your support to make this first appearance as successful as possible. Given the increased focus on buildings at EU level and the ambitions to boost the renovation rate, we believe it is the right opportunity to create such a platform.

It is possible to participate as sponsor to present your company. Check out the attached info on Support Packages and contact General Secretariat in Frankfurt for further information.

Best regards,

Joachim Oberrauch, President

Helle Carlsen Nielsen, Vice President

Franz Hauk, Vice President
